Thank you to our Event Host

Sarah Bartlett

- President – Potential Energy Consulting

Presentation:

- Topic – Professional Development
- Title – Change: Saboteur or Ally

Bio: Sarah Bartlett is the President of Potential Energy Consulting. She is a career and leadership coach who partners with individuals and companies to tap into their potential, exceed their career goals, and grow. Her experience leading teams, projects, and initiatives helps professionals accelerate with intention. After more than a decade of leading teams in the energy industry, Sarah realized her true passion is people. Combining her degrees from the Colorado School of Mines with her professional and technical experience, she is uniquely equipped to navigate the complexities of the energy industry and develop the people, teams, and initiatives within it. Sarah's accomplishments range from raising two adorable four-legged children to being the Colorado Oil and Gas Association's inaugural Emerging Leader, as well as being recognized as one of the Denver Business Journal's Top Women in Energy.

Presentation Synopsis – Change: Saboteur or Ally

Biologically and evolutionarily, we resist change, even when we know that change is good for us. Spoiler alert, change isn't going away. How can we listen for the changes we know we have been resisting deep down? How can we start to look at change as an ally as it is both unavoidable and the key to growth?

Jane Allred

- Chief Electrician Inspector State of WY.

Presentation:

- Topic – Electrical Safety
- Title – Electrical Safety & Common Inspection Errors

Bio: Jane Allred is the Chief Inspector for the State of Wyoming who has over forty years experience in the industry as an installer, contractor and inspector. Jane holds Master Electrical Licenses in Wyoming and Idaho and is certified with the ICC as a Building Inspector and Electrical Inspector as well as with the International Association of Electrical Inspectors as a Master Electrical Inspector. Jane is also a member of the board for raising the profile of the International Code Council. Most importantly, Jane is a wife, mother, and grandmother.

Presentation Synopsis – Electrical Safety and Common Inspection Errors

There are many aspects to electrical safety and this presentation will answer questions regarding basic electricity, why the NEX code was implemented, human error and the importance of maintaining safety in the industry, common errors found during inspections, and finally, the importance of electrical licensing, supervision, and taking required CEU's.

Derek Boer

- Pollution Prevention (P2) Specialist
Colorado Green Business Network, CPDH

Presentation:

- Topic – Sustainability
- Title – Colorado Green Business Network

Bio: Derek is a Pollution Prevention (P2) Specialist in the Colorado Green Business Network, at the Colorado Department of Public Health and Environment. Derek provides P2 technical assistance to businesses, outreach and training to industry, and promotes P2 and sustainability through regional and statewide networks. Derek has a B.A. from the University of Colorado and a Master's degree in Environmental Policy and Management from the University of Denver.

Presentation Synopsis – Colorado Green Business Network

Colorado businesses increasingly want to green their operations. Where do businesses start and what support is available?

The Colorado Green Business Network (CGBN) is a voluntary program that encourages, supports, and rewards superior environmental performers that go beyond the requirements of environmental regulations and move toward the goal of true, operational sustainability.

Our goal is to support organizations throughout the state at any level of implementation in increasing the efficiency and sustainability of their operation through assessing opportunities for growth, recognizing success, and providing connections to like-minded businesses throughout the state.

Troy L. Clark

- President – MSC Safety Solutions

Presentation:

Topic – Crane Safety

Title – Crane Safety in Construction

Bio: Troy L. Clark has worked in the safety industry for more than 20 years specializing in construction and general industry policy development, behavioral based safety, fall protection, and safety management principals. He has work in a variety of capacities in a variety of industries to include; NPPD nuclear power; asbestos and lead abatement; Heavy Civil with Ames and SEMA Construction; and Commercial and government work to include, US Army Corp of Engineer construction sites with Hensel Phelps.

Troy joined Miller Safety Consulting in the spring of 2010 and quickly became an asset to the company. In 2011 he became a part owner and the sole owner in 2016. Miller Safety Consulting has evolved into MSC Safety Solutions and continues to develop new and innovative ways to bring safety and risk management to its clients

Presentation Synopsis – Crane Safety in Construction

The presentation is a brief overview of the 1926 Subpart CC individuals' requirements when using cranes on a construction site. We will cover requirements for Site Supervisors, Assembly/Disassembly Directors, Lift Directors, Crane Operators, Rigger and Signal roles, and Crane Inspection requirements.
